Partnering In Our Customers' Success For Over 100 Years

Optimas International Global Quality Policy

Optimas International is committed to serving and adhering to the requirements of a variety of different industries. We do this by partnering with our customers, suppliers and employees to establish and maintain the highest levels of quality performance for both our products and services. We will leverage the foundation of our company values of Teamwork, Honesty, Respect, Excellence, Accountability & Drive (THREAD) to execute our quality policy.

People

Training & professional development resources to support employees' personal, organisational & customer performance objectives.

Compliance

Complying with applicable regulatory, customer & internal processes.

Risk Management

Adopting risk-based thinking to identify, prioritise & mitigate business risks.

Execution

Effectively communicating our strategic & quality objectives, ensuring their execution by monitoring outcomes & using actionable feedback to drive results.

Improvement

Promoting a culture of continuous improvement, championed by management & involving all stakeholders that is integrated into our quality management system to drive organisational excellence.
